### EDUCATION

**Web Development Immersive**  
General Assembly  
Chicago, IL  
November 2017

**Bachelor of Art: Music**  
Armstrong University  
Savannah, Georgia  
May 2013

### ABOUT ME

Music has taught me how to be a better coder. It's enabled me to translate skills such as problem solving, identifying patterns and attention to detail in my developmental work. My background in music theory has also shaped me to understand the importance of the details. In the same way I would work on harmonic analyses, I now use the same approach to many areas of web development.

### SKILLS

#### Technology

HTML5, CSS3, Sass, jQuery, Bootstrap, React.js, JSX, Express.js, Gulp, Node.js SQL, Mongo/MongoDB, Ruby, Mongoose

#### Music
